ABRAÃO **COUTINHO**

GRAPHIC DESIGNER

OBJECTIVES: **VISUAL DESIGN; UX/UI; FRONT-END DEVELOPER**

Ten years experience designing creative solutions both on- and off-screen. I have a clear understanding of interaction design concepts and an excellent sense of typography, layout and design principles.

I'm skilled in front-end coding to prototype and execute ideas on user interfaces. I'm able to produce responsive, innovative and stunning visual models for any devices.

Strongly focused on agile development, design methodologies, mobile navigation, user experience, information architecture, product thinking, MVPs, heuristic evaluations, prototypes and user acceptance testing. Meticulous while still able to iterate quickly.
